PROFESSIONAL SUMMARY

Detail-oriented Information Systems Officer with experience managing data systems, IT operations, and business-critical processes in a multi-branch environment. Strong focus on **data integrity, risk reduction, compliance, and system reliability**. Proven ability to manage sensitive client data, monitor financial processes such as debit orders, and implement controls to ensure accuracy and accountability.

Skilled in troubleshooting, database management, and process improvement, with a solid foundation in software development and data analysis. Seeking to contribute to **risk management, compliance, or IT support functions** within a banking environment.

KEY COMPETENCIES

- Data Integrity & Validation
 - Risk Awareness & Process Control
 - IT Support & Incident Resolution
 - Database Management (SQL, MySQL, SQL Server)
 - Compliance-Oriented Data Handling
 - Financial Systems Support (Debit Orders, Client Records)
 - Troubleshooting & Root Cause Analysis
 - System Monitoring & Maintenance
 - Confidential Data Management
 - Process Improvement & Automation
-

WORK EXPERIENCE

Information Systems Officer (3-Month Contract)

BiBi Funeral Scheme | Dec 2025 – Feb 2026

- Managed IT systems and infrastructure across multiple branches, ensuring system uptime and reliability
 - Maintained and safeguarded **sensitive client and financial data**, ensuring accuracy and compliance with internal processes
 - Monitored and managed **debit order systems**, identifying and correcting discrepancies to reduce financial risk
 - Performed **data validation and integrity checks** to prevent errors and ensure accurate reporting
 - Resolved technical issues efficiently, minimizing operational disruptions
 - Implemented system and process improvements to enhance efficiency and reduce manual errors
 - Acted as liaison between management, finance teams, and external service providers
-

Information Systems Officer (IT Intern – INSETA)

BiBi Funeral Scheme | Dec 2024 – Nov 2025

- Provided first-line IT support, resolving hardware, software, and connectivity issues
 - Assisted in **capturing, verifying, and maintaining client data** in internal systems
 - Supported debit order processing and handled system-related client queries
 - Gained exposure to **financial data handling and system-based transaction processes**
 - Contributed to maintaining accurate and reliable data for operational use
-

KEY ACHIEVEMENTS

- Successfully managed IT operations independently across multiple branches
- Improved data accuracy through validation checks and system controls
- Reduced operational errors by supporting process improvements and automation
- Maintained high levels of data confidentiality and system reliability

EDUCATION

Bachelor of Science in Mathematical and Computer Science

University of Limpopo | 2019 – 2023

Majors: Applied Mathematics, Computer Science

TECHNICAL SKILLS

Databases & Data:

MySQL, Microsoft SQL Server, PostgreSQL, MongoDB

Programming:

Python, Java, JavaScript, C#, C++, SQL

Data & Reporting Tools:

Excel, Power BI, Tableau, Google Analytics

IT Support & Systems:

Windows, Remote Desktop, Hardware/Software Troubleshooting, LAN/WAN

Tools:

Git, GitHub, Visual Studio Code
